Adjustment Policy Passenger and Light Truck Tyres

When the original usable tread is worn 25% (2/32") or less, and a warrantable condition is found, the tyre will be replaced with a comparable new Blacklion tyre free of charge. Replacement tyres will be mounted and balanced at the vehicle owner's expense. Other service charges such as tyre rotation, alignment or applicable taxes are payable by the customer.

When a tyre has worn past the above specified period for free replacement and a warrantable condition is found, the customer must pay for the cost of a new comparable Blacklion passenger or light truck tyre on a prorated basis. The dealer shall determine this cost by multiplying the percentage of usable tread worn by the current retail selling price (Suggested Retail Price x 80%) of that tyre at the time of warranty replacement. The cost of mounting, balancing and any other service charges or applicable taxes are payable by the customer.
